

BE PART OF THE STREETDOCTORS MOVEMENT

Empowering young people to keep themselves and others safe

StreetDoctors is a national charity that puts young people at the centre of emergency first-aid provision and empowers them to become part of the solution to violence.

What?

We train thousands of young people across the country in trauma informed emergency first-aid so they have the confidence to act as a first responder.

How?

Training is delivered by our movement of young healthcare volunteers (nurses, paramedics and doctors) - **just like you**, who work in partnership with criminal justice services, schools, pupil referral units, youth, sports and community groups.

BECOME A VOLUNTEER

Minimum two-year commitment with
suggestion of 6 hours per month

(which includes delivery, training,
meetings, travel and preparation)

SCAN HERE

What's in it for me?

You'll receive a top quality volunteer experience which includes:

- ♡ Support and advice from our central and regional teams
- ♡ CPD UK accredited training programme
- ♡ A personal letter of reference
- ♡ Access to our volunteer management system to support engagement and recognition of delivery activities

What will I be doing?

Session delivery

You will be delivering sessions to partners (including, community organisations, criminal justice organisations, education providers and youth organisations)

Quality work

Preparation is key. We ask you turn up ready to deliver your sessions with all the right equipment, and in plenty of time.

Monitoring

You will help us develop our delivery so it's just right for our audience. This means keeping on top of feedback and using it in your own practice.

Learning and Development

We offer continuous training, and personal development plans, so it's important that you really engage with these to keep your skills, knowledge and insight to a top quality level.
